

EcoTop™
SURFACES

Sustainable...without Sacrifice.™

EcoTop™ is one of the newest innovations from award-winning green product creator, Joel Klippert. As a bio-composite surface material used among other things, for countertops, tabletops, floors and walls, etc., EcoTop™ adds practical style in both residential and commercial settings.

Revolutionary

- EcoTop™'s new patent pending, SCS certified process uses a cutting edge fiber and resin system.
- Offers rich stable color that won't fade with UV exposure or discolor over time.
- 100% water-based resin allows EcoTop™ to be manufactured in a wide range of colors or even customized to match specific color needs.

Environmentally Responsible

- Composed of FSC certified fiber that is a 50/50 blend of bamboo, a rapidly renewable resource, and post-consumer recycled paper.
- Materials are bound together with a 100% water-based co-polymer resin formula.
- VOC and benzene free.
- Can contribute toward seven points on your next LEED project.

Sophisticated

- Smooth texture and sleek lines offer a refined and timeless appearance.
- Available in ten colors
- Custom colors are available if ordered in large quantities.

Durable

- EcoTop™ surpasses all surfaces in durability with its new generation of surface products.
- Longer bamboo fibers pioneered in the EcoTop™ formula make it highly scratch resistant with water absorption of less than one percent.
- Easily fabricated and installed.

"We are committed to researching, developing, designing, and manufacturing the most durable, cost effective, user and environmentally friendly products in the world, while delivering quality products with unmatched customer service."

JOEL KLIPPERT,
KLIP BIOTECHNOLOGIES

Standard Sheet Sizes:

- ¾" x 30" x 144"
- ¾" x 60" x 144"
- Custom thickness available in volume

PROPERTY	TYPICAL RESULT
WATER ABSORPTION	0.75%
COMPRESSIVE STRENGTH	52,526 PSI
TENSILE STRENGTH	28,675 PSI
FLEXURAL STRENGTH	41,650 PSI
HARDNESS	>85, 55
THERMAL EXPANSION	.35 x 10-5
IZOD IMPACT	3.92
BALL IMPACT	NO EFFECT 1/2 LB. BALL
BACTERIA & FUNGUS	DOES NOT SUPPORT GROWTH
FLAMMABILITY	CLASS 1 & CLASS A
FLAME SPREAD	10
SMOKE DEVELOPMENT	85

About Klip BioTechnologies, LLC

Klip BioTechnologies, owned by green products innovator Joel Klippert, specializes in the design and production of award-winning, environmentally-friendly countertop, decking, flooring and siding surfaces. With his wife LeeAnn, Joel started experimenting with materials and resins in his garage more than a decade ago, eventually creating PaperStone™ products. Today Joel and LeeAnn continue to create products that rival natural stone and solid surfaces in beauty and durability. By inventing and perfecting sustainable manufacturing practices, KlipTech is accomplishing its goal to help maintain the earth's natural resources for generation to come.

EcoTop™ Availability

EcoTop™ is sold through a distribution network across the United States and Canada. See the KlipTech website for more information.
