Designing universal kitchens

**78**  
 GX2 Premium Exterior Stucco from **Expo Stucco Products** incorporates 10 percent recycled content into the mix, which qualifies it for LEED points. It is available in a variety of textures and colors. For more info circle #78

**82**  
 Vail Titan Select shingles from **Custom-Bilt Metals** are designed to provide timeless style and durability for homeowners. Heavy-gauge metal construction and a patented, interlocking design help them stand up to harsh weather, including extreme temperatures, snow loads, wind and rain. For more info circle #82

**360 Electrical** introduces a line of wall outlets with receptacles that rotate a full 360 degrees in both directions. These outlets are ideal for strategic locations in homes and offices where products with large plugs are most heavily used. For more info circle #86

**79**  
 The Silhouette smoke alarm from **Kidde** is an alternative to the traditional, round smoke alarms that extend 3 in. from the ceiling. It combines a unique look with maintenance-free protection. The UL-listed alarm fits in the most common electrical 2-gang and plastic round boxes with 3½-in. hole spacing. For more info circle #79

**83**  
**Klip BioTechnologies** announces its EcoTop and EcoClad brands of green surface products. These indoor and outdoor composite surface materials boast a new and improved formula offering strength and durability. Each is composed of a certified 50/50 blend of bamboo fibers and recycled wood fiber salvaged from demolition sites. For more info circle #83

**AirVac's** new Platinum Series central vacuum system offers high-efficiency, two-stage filtration and a high air watt rating while maintaining low operating noise. It includes self-sealing disposable bags and a built-in utility port. For more info circle #87

**80**  
**Ardee Lighting** offers its Modulex M3.7 Series, 3-in. aperture recessed ceiling downlights, employing energy-efficient ceramic metal halide light sources. Equally small-scale MR-16 ceramic metal halide lamps emit intense, white light with high visibility, accurate color rendition and long operating life. For more info circle #80

**84**  
 The miniLoo toilet from **Neo-Metro** is perfect for small spaces. This particular toilet uses a European in-wall flushing mechanism. This stainless steel toilet is also available in a white powder-coat finish. For more info circle #84

**88**  
 FloWise from **American Standard** includes the EPA WaterSense label. Using only 1.28 gal. per flush, the toilet qualifies as a high-efficiency toilet. For more info circle #88

**81**  
**Cooper Lighting** introduces new styles, colors and sizes to add to the hand-made Halo Art Glass Family Collection. The three new shapes include a cylinder, beret and haloid. The new vibrant color choices are named sea moss, sandstone, indigo, lava, mossy web, amber web, amber ice, mossy ice, marshmallow swirl, candy apple, caramel, Irish coffee, plum wine and licorice. For more info circle #81

**85**  
**Stone Forest's** Shower Sculpture is comprised of several customized shower pans carved from a single thick slab of black granite. Featuring a concealed drain, the floor of the pan has a unique appearance. The only removable piece is the end slab, which can be installed over a standard shower tray drain. For more info circle #85
